- Bug Fixing & Performance Improvement
- Team Collaboration

CERTIFICATIONS

- Introduction to Software Engineering - Coursera
- Generative AI: Introduction and Applications - Coursera

ABOUT ME

Software Developer with 2+ years of experience shipping production web applications for 6+ live client projects. Specializes in React.js and Vue.js frontend development, with hands-on backend experience in Node.js, Express, and MongoDB for REST API integration. Track record of resolving critical bugs, optimizing performance, and delivering responsive, cross-browser-compatible interfaces. Currently building full-stack applications with authentication and scalable architecture.

PROFESSIONAL EXPERIENCE

Associate Software Developer

2025 - Present

NetInc Digital Services LLP - Ahmedabad

- Developed and maintained **multiple production-level web applications**, ensuring performance and responsiveness
- Built dynamic and reusable UI components using **React.js and Vue.js**
- Integrated frontend with backend systems using **REST APIs**, improving data handling and user experience
- Identified and resolved critical bugs, improving application stability and performance
- Collaborated with backend developers to implement **end-to-end features**
- Worked on **responsive design and cross-browser compatibility** across devices
- Managed multiple projects simultaneously and delivered within deadlines

React.JS Developer

Sharva InfoTech - Rajkot

2022 - 2023

- Developed reusable UI components using React.js
- Worked on **CRUD operations and API integration**
- Assisted in frontend feature development in real-world projects
- Gained experience in team-based development and project workflows

PROJECT EXPERIENCE (Live Websites)

Contributed to multiple live production websites, including development of new websites and maintenance of existing projects. Responsibilities included UI development, responsive design implementation, performance improvements, and bug fixing. Currently working on multiple new website developments that will be launched soon in production.

- Amanta** - Developed and launched the new website with responsive UI.
- Calico Museum** - Worked on frontend development for the new website.
- CUPDF** - UI implementation using Vue.js
- MDI Gurgaon** - Website maintenance and layout fixes
- Madhubhan Resort** - Led new website build and launch from scratch.
- Elecon** - Website maintenance and layout fixes
